Custom Sheet Metal Fabrication OEM Laser Cutting Copper Stainless Steel Anodised Aluminum Bending Parts

Basic Information

- Place of Origin:
- Brand Name:
- Certification:
- Model Number:
- Minimum Order Quantity:
- Price:
- Packaging Details:
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms:
- Supply Ability:

Product Specification

Copper, Stainless Steel, Aluminum, Brass, Etc.
Hot Galvanized, Zinc Plating, Nickel Plating, Powder Plating, Anodize
Stamping, Punching, Bending, Punching Of Stamping Blanks, Stamping + CNC
Construction, Industrial, Used Widely Industry Auto, Mechanical Equipment, Auto Parts
OEM/ODM, OEM ODM Metal Stamping, Customized OEM OEM ODM, OEM Service
0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
Available
ISO9001
Custom Stamping Metal
As Customers' Requirement

What We Can Provide

Custom Sheet Metal Fabrication OEM Laser Cutting Copper Stainless Steel Anodised Aluminum Bending Parts

Description of Custom Sheet Metal Fabrication OEM Laser Cutting Copper Stainless Steel Anodised Aluminum Bending Parts Supplier

A Custom Sheet Metal Fabrication OEM Laser Cutting Copper Stainless Steel Anodised Aluminum Bending Parts Supplier is a company that specializes in providing customized sheet metal fabrication services, utilizing advanced laser cutting technology to process a variety of materials such as copper, stainless steel, and anodized aluminum, and offering bending services to form these materials into the desired parts.

As a Custom Sheet Metal Fabrication OEM supplier, this company has the expertise and capabilities to design and manufacture sheet metal parts according to customers' specific requirements and specifications. They work closely with clients to understand their needs and ensure that the final product meets their expectations in terms of quality, functionality, and aesthetics.

Laser cutting is a key technology used by this supplier. It involves using a high-powered laser beam to cut through materials with precision and accuracy. This process allows for intricate designs and shapes to be created with minimal waste and a high degree of repeatability. The supplier has the capability to cut a wide range of materials, including copper, stainless steel, and anodized aluminum, making them versatile in terms of the types of parts they can produce.

In addition to laser cutting, this supplier also offers bending services to form the cut materials into the desired shapes and sizes. They use advanced bending techniques and equipment to ensure that the parts are formed accurately and without defects. This allows for the production of parts with complex geometries and tight tolerances.

Specification of Custom Sheet Metal Fabrication OEM Laser Cutting Copper Stainless Steel Anodised Aluminum Bending Parts Supplier

Name	Custom OEM Laser Cutting Sheet Metal Fabrication Services Copper Stainless Steel Anodised Aluminum Metal Stamping bending Parts
Material	Zn-plating, Ni-plating, Cr-plating, Tin-plating, copper-plating, the wreath oxygen resin spraying, the heat disposing, hot-dip galvanizing, black oxide coating, painting, powdering, color zinc-plated, blue black zinc-plated, rust preventive oil, titanium alloy galvanized, silver plating, plastic, electroplating, anodizing etc.
Applications	Automotive, instrument, electrical equipment, household appliances, furniture, mechanical equipment, daily living equipment, electronic sports equipment, light industry products, sanitation machinery, market/ hotel equipment supplies, artware etc.
Packaging	Regular: Paper, Foam, OPP bag, Carton; Other: According to customers' requirements
Testing Equipment	Projecting apparatus, Salt Spray Test, Durometer, and Coating thickness tester
Tolerance	±0.01-0.05mm
Drawing	JPG, PDF, CAD, DWG, STP, STEP

Quality Control

- 1. Checking the raw material after they reach our factory------ Incoming quality control (IQC)
- 2. Checking the details before the production line operated
- 3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
- 4. Checking the goods after they are finished---- Final quality control(FQC)
- 5. Checking the goods after they are finished-----Outgoing quality control(OQC)

Application Of Custom Sheet Metal Fabrication OEM Laser Cutting Copper Stainless Steel Anodised Aluminum Bending Parts Supplier

- 1. Auto Components Hardware Parts Auto Parts
- 2. Communication Equipment
- 3. Industrial Equipment
- 4. Medical EquipmentsMechanical Parts
- 5. Ship Accessories
- 6. Electrical Equipment
- 7. Mechanical Equipment

Why Choose Us

for more products please visit us on cnc-metalmachining.com

Our Advantages

1. Small details make big difference. We promise:All the parts from our company have no sharp edge. All dimensions are controlled according to your drawings. Every product will be fully inspected and carefully packed to prevent the bump and rust in transit.

2. The craftsmanship of all parts we machined is controlled rigorously, Every product has its own process card and process chart.

3. Our quality inspection procedure is quite strict.it must self-inspected during production, we have flow inspectors and professional inspectors.

4. Each size of product must be tested one by one after completing production and provide quality report.

5. The most important point, we are the entity factory, not trading company. Price is the composition of the actual product quality price. Quality can guarantee more controllable higher than trading company. The price is competitive, at least reducing the trade company's service fee.

6. We have many years of export experience, exports to the US, Europe, Japan and other countries and regions.

7. Our team are more professional. We have more reasonable price and better quality controlling than trade company. And our language ability is also diversified.

Multipe Machines Professional machines, skillful workers, guarantee the guality and lead time.

Strictly Confidential

We will protect the customers'design and the customer can request a confidentiality agreement

Quality Inspection

We have a strict quality inspection process to ensure the quality of our products

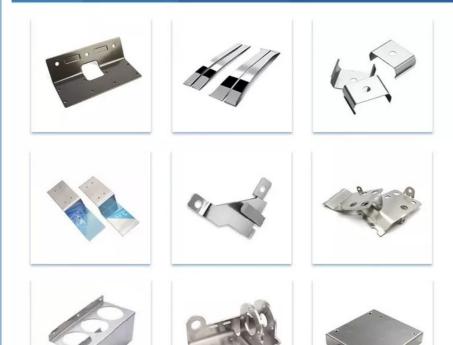

Stainless Steel Material

Material:

Stainless Steel 201 Stainless Steel 430 Stainless Steel 304 Stainless Steel 316

Finish:

Mirror Polishing Brush Polishing Electro Polishing Vibration Polishing

FAQ

Q1: Where can I get product & price information?

A1:Send us inquiry e-mail, we will contact you as we receive your mail.

Q2: How long can I get the sample?

A2:Depends on your specific items, within 3-7 days is required generally.

Q3: What kinds of information you need for quote?

A3:Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

Q5: Are you a trading company or factory?

A5:We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

Q6: What shall we do if we do not have drawings?

A6:Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Hight, Width), CAD or 3D file will be made for you if placed order.
