

## OEM Laser Cutting Custom Sheet Metal Fabrication for Precision Copper Stainless Steel Anodised Aluminum Bending Parts

Our Product Introduction

for more products please visit us on [cnc-metalmachining.com](http://cnc-metalmachining.com)

### Basic Information

- Place of Origin: Shenzhen China
- Brand Name: Xianheng
- Certification: ISO9001:2015
- Model Number: PMS-XG-064
- Minimum Order Quantity: 1 pcs
- Price: USD \$0.1-\$1.99
- Packaging Details: Carton, As Customers' packaging requirements
- Delivery Time: Samples 7-10 days, Mass production 20-25 days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 50000 pcs per week

### Product Specification

- Material: Copper, Stainless Steel, Aluminum, Brass, Etc.
- Surface Treatment: Hot Galvanized, Zinc Plating, Nickel Plating, Powder Plating, Anodize
- Process: Stamping, Punching, Bending, Punching Of Stamping Blanks, Stamping + CNC
- Application: Construction, Industrial, Used Widely Industry Auto, Mechanical Equipment, Auto Parts
- Service: OEM/ODM, OEM ODM Metal Stamping, Customized OEM OEM ODM, OEM Service
- Tolerance: 0.01mm, 0.05 Mm, +/-0.005, 0.003-0.05mm
- Oem: Available
- Quality: ISO9001
- Keywords: Custom Stamping Metal
- Packing: As Customers' Requirement
- Highlight: Precision Copper Sheet Metal Fabrication,

## Product Description

### What We Can Provide

OEM Laser Cutting Custom Sheet Metal Fabrication for Precision Copper Stainless Steel Anodised Aluminum Bending Parts

#### Description of OEM Laser Cutting Custom Sheet Metal Fabrication for Precision Copper Stainless Steel Anodised Aluminum Bending Parts

OEM Laser Cutting Custom Sheet Metal Fabrication for Precision Copper, Stainless Steel, and Anodised Aluminum Bending Parts refers to a specialized manufacturing service that produces custom-made sheet metal parts through a combination of laser cutting, bending, and other fabrication processes. These parts are typically made from high-quality materials such as copper, stainless steel, and anodized aluminum, and are designed to meet the precise specifications and requirements of original equipment manufacturers (OEMs).

**Copper:** Known for its excellent electrical conductivity, corrosion resistance, and ductility, copper is often used in the production of electrical components, connectors, and other parts that require high conductivity and durability.

**Stainless Steel:** This material is highly resistant to corrosion and oxidation, making it ideal for applications in harsh environments. Stainless steel is commonly used in the production of parts for the food and beverage industry, medical equipment, and other applications where hygiene and durability are critical.

**Anodised Aluminum:** Aluminum that has undergone an anodizing process to enhance its corrosion resistance, hardness, and wear resistance. Anodized aluminum is often used in the production of parts for the aerospace, automotive, and electronics industries due to its lightweight, strength, and aesthetic appeal.

#### Specification of OEM Laser Cutting Custom Sheet Metal Fabrication for Precision Copper Stainless Steel Anodised Aluminum Bending Parts

Name	Custom OEM Laser Cutting Sheet Metal Fabrication Services Copper Stainless Steel Anodised Aluminum Metal Stamping bending Parts
Material	Zn-plating, Ni-plating, Cr-plating, Tin-plating, copper-plating, the wreath oxygen resin spraying, the heat disposing, hot-dip galvanizing, black oxide coating, painting, powdering, color zinc-plated, blue black zinc-plated, rust preventive oil, titanium alloy galvanized, silver plating, plastic, electroplating, anodizing etc.
Applications	Automotive, instrument, electrical equipment, household appliances, furniture, mechanical equipment, daily living equipment, electronic sports equipment, light industry products, sanitation machinery, market/ hotel equipment supplies, artware etc.
Packaging	Regular: Paper, Foam, OPP bag, Carton; Other: According to customers' requirements
Testing Equipment	Projecting apparatus, Salt Spray Test, Durometer, and Coating thickness tester
Tolerance	±0.01-0.05mm
Drawing	JPG, PDF, CAD, DWG, STP, STEP

#### Quality Control

1. Checking the raw material after they reach our factory----- Incoming quality control ( IQC)
2. Checking the details before the production line operated
3. Have full inspection and routing inspection during mass production---In process quality control(IPQC)
4. Checking the goods after they are finished---- Final quality control(FQC)
5. Checking the goods after they are finished-----Outgoing quality control(OQC)

#### Application Of OEM Laser Cutting Custom Sheet Metal Fabrication for Precision Copper Stainless Steel Anodised Aluminum Bending Parts

1. Auto Components Hardware Parts Auto Parts
2. Communication Equipment
3. Industrial Equipment
4. Medical EquipmentsMechanical Parts
5. Ship Accessories
6. Electrical Equipment
7. Mechanical Equipment

### Why Choose Us

#### Advantages

1. Quality control: the defective products rate is 0.1%. Imported material 100%.
2. Reasonable price. Precision made. Experience & reasonable QC that you can rely on.
3. Each part would be given 100% test and tryout before shipment.
4. Adequate supply capacity. Punctual delivery time.

## Multiple Machines

5-Axis CNC & Import Professional machines, skillful workers, machines, skillful workers, with accuracy of 0.01mm, guarantee the quality and lead time. fast lead time

## Strictly Confidential

We will protect the customers' design and the customer can request a confidentiality agreement

## Quality Inspection

We have a strict quality inspection process to ensure the quality of our products

# Stainless Steel Material

## Material:

Stainless Steel 201  
Stainless Steel 430  
Stainless Steel 304  
Stainless Steel 316

## Finish:

Mirror Polishing  
Brush Polishing  
Electro Polishing  
Vibration Polishing

## FAQ

### Q1: Where can I get product & price information?

A1: Send us inquiry e-mail, we will contact you as we receive your mail.

### Q2: How long can I get the sample?

A2: Depends on your specific items, within 3-7 days is required generally.

### Q3: What kinds of information you need for quote?

A3: Kindly please provide the product drawing in PDF, and will be better you can provide in STEP or IGS.

### Q4: What are the payment terms?

A4: We accept 50% as payment deposit, when the goods is done, we take photos for your check and you then pay the balance.

### Q5: Are you a trading company or factory?

A5: We are direct factory with 10 experienced engineers and more than 650 employees as well approximate 2,000 square ft. workshop area.

### Q6: What shall we do if we do not have drawings?

A6: Please send your sample to our factory, then we can copy or provide you better solutions. Please send us pictures or drafts with dimensions (Length, Height, Width), CAD or 3D file will be made for you if placed order.
